

XIII. Masters World Championships in Modern Pentathlon and Tetrathlon Berlin, 17-21 September 2014

UNION INTERNATIONALE DE PENTATHLON MODERNE - UIPM

Monaco, 30th August 2014

UIPM XIII Masters World Championships Berlin – Germany

Dear Athletes, dear Coaches, dear Organisers, dear Fans, dear Friends,

It is with great pleasure that I welcome you all to the wonderful city of Berlin in Germany for this highly anticipated edition of the UIPM XIII Masters World Championships. This competition and format has not only come to life thanks to my personal efforts in the last decades but also to the incredible commitment of you Masters in keeping the legacy of Modern Pentathlon beyond modernity while preserving the De Coubertin principles of participation over final victory, of personal achievements over results, of great tenacity and fair play over individualism.

Additionally this competition has to showcase the progression made in this thirteen years of work and it is incredibly pleasant to me to have this staged in my home country both as former and Honorary DVMF President as well as UIPM President. It is also important to underline that 130 athletes from more than 20 countries will compete in this edition.

With the Olympic Games, any UIPM World Championships is the pinnacle of any athletes and with the competitiveness comes also a cultural component that I particularly care about as member of the IOC Culture and Olympic Education Commission so I am very pleased to know that skilled personalities will participate within the uniqueness of a venue such as the Berlin Olympic Park.

The future of the Masters movement has to be bright because you are the legacy of our sport and of the Olympic movement itself therefore we, as UIPM, want to progress in further developing all activities concerning each disciplines, starting from the recent revision of your combined event and standardised use of laser shooting that we supported with 10 pro-sets in the past few months in order to start testing and using it among masters. Future generations of modern masters pentathletes are set to use such technology and we have to progress with modernity in this direction too.

Most importantly it is also to consider the highest component of the Masters movement that is the open participations; this can only be achieved by supporting IT progression (ie laser shooting or fencing ladder system) – revising event planning and cost-benefit auditing on time and on budget. I am proud leader in seeing how you showcase your interest in progressing together in such direction and we can be sure that the actual cost for some equipment will progressively decrease if we are able to open our doors to new suppliers.

On behalf of the Union, all that is left for me to do is to wish you all my very best. I know you will have a wonderful time in Berlin where people are welcoming and facility is perfect and I am sure with the help of the Local Organising Committee you will compete with fair play and sportsmanship.

I would like to extend my gratitude to the Masters' Committee all, to the out-going Chairman Erik Pock, to the LOC led by Mr Sandor Körös and again to all of you participants, stakeholders and Modern Pentathlon fans to support the Masters in this 13th World Championships edition. The event is promising, the environment is atop so let's see memorable competitions for the legacy of our sport!

With my kindest Regards,

Dr h.c. Klaus Schormann
President

Erik Pock, Denmark

Born 1936 and today the oldest active Masters athlete with the intention to continue as active.

A Masters Pentathlete from 1997–2006, but after a riding injury in München, I changed to the Tetrathlon. I have been both the Masters President from 2004 – 2007 for the Masters own organization (UIMPM) and elected as Masters Chairman in the UIPM Masters Committee from 2008.

I took the initiative to a closer cooperation with UIPM and at the Congress in 2008 I presented a new Masters concept with competing in 10 years age groups. Due to the fact that all Masters Championships were won by the oldest Masters athletes because the old handicap point scale was too much in favor for the elderly athletes.

The Masters could not agree to a new handicap scale or a faster swimming and running time to get the 1000 points which would benefit the younger athletes. Then we decided to implement the age groups from 2008.

We also hoped that competing for medals in age groups would bring more and younger Pentathletes into our sport. We also invited the 30+ Pentathletes to join the Masters brotherhood. These changes in the rules has not been accepted by all elderly Masters as well as the demand from UIPM to give up our original own Masters organization with Sports Commission, Technical Commission and a

yearly National fee for competing in our Asters competitions. Now the Masters only financial support comes from the Masters budget decided by UIPM. Nevertheless I have been satisfied with the support and cooperation from the staff at the UIPM HQ and the future for the Masters seems brighter inside UIPM than ever.

We must follow the new competitions concept with laser shooting and Combined event and in some years the 30+ and 40+ Masters do not know else and the elderly Masters will find a way to train for the Combined and still be with us. Remember: To be a Modern Pentathlete/Tetrathlete is a “way of living...for your entire life”.

Thank you to all Masters and those FEW national Federations (Hungary, German, Ukraine, Holland, Austria) who have helped us to organize our Championships.

When I was elected in 2004 I had a vision that the Masters athletes would be accepted and supported worldwide inside the UIPM national Federations. I am still waiting for this to happen.

I am very happy that the 2014 Berlin World Masters Championships will be with new athletes from nations we never have seen before and I hope that my old friend Dr. Sandor Köris will be happy too, when the competition is over. Thank you so much for all your support to me through the many years and for all the Masters competitions you have organized and supported over the last 8 years.

Now as a 78 year athlete it is time for me to step down as Masters Chairman and to give younger Masters the tough job to implement the laser pistols and the combined event .

Thank you for some good years to all Masters athletes and a some sad tears for all those Masters who did not voluntary stopped their Masters career, but passed away during my time as President and Chairman.

Erik Pock

Dear Masters,

Berlin, September 2014

on behalf of the organizers I do welcome you to Berlin for the XIII. UIPM Masters World Championships in Modern Pentathlon and Tetrathlon from 17.09.-21.09. 2014

It was quite a long way the organizers within and out of Berlin had to go to bring the Masters World Championships 2014 forward.

I was lucky having good experts around me some of them I have been knowing for about forty years. All of them have helped to organize the carrying out of the different disciplines. Without their assistance the organization of the large "record" registration number of 122 Masters from 23 nations would not have been possible.

An especial word of praise I would like to give to my friend, the graduate engineer Rüdiger Menz, who spent hundreds of hours on the computer controlled competition courses. He will also carry out the evaluations of all results.

Many thanks to all Masters athletes who kept the deadline of the registrations. Thus I could work on the further competition conditions and the accommodation planning.

I also express my thanks to the Berlin association of Modern Pentathlon that have applied and got for us the excellent sport places from the different administrations of the Olympic Park.

Our leaving President Eric Pock we owe thanks for his many years of work he dedicated to our Masters community. We also wish him a

lot of years of active participation in the Masters competitions and the best of health. Last but not least I hope all Masters athletes will have exciting and successful competitions as well as an interesting time in Berlin so that you may keep the Masters World Championships in good remembrance.

With sporty greetings

Yours

Dr. Sandor Körös

Masters Sport Director of UIPM

Chairman of the Organization

TIMETABLE

Wednesday, 17 September 2014				
TIME	ARRIVAL	REGISTRATION	PLACE	RESPONS
