Competition Format and Rules

Formato e regras da competição / Format et règles de la compétition

Olympic competition format

The modern pentathlon programme at the Rio 2016 Olympic Games consists of men's and women's individual events.

Each event consist of the following phases: fencing ranking round, swimming, fencing bonus round, riding show jumping and combined running/shooting.

Athletes achieve points in each phase according to their performance, and the points from each phase are cumulative. The final ranking is decided by the number of points scored in all phases – it also corresponds to the finishing order in the combined running/shooting). This means that the athlete who crosses the finish line first wins the gold medal.

Fencing ranking round

The fencing ranking round phase consists of an individual round and team rounds.

All athletes will be drawn into teams of two athletes, from a single NOC or mixed NOCs. The draw for the fencing pairs and assignment of the pistes for each event will be made by the technical delegate before the technical meeting for both events. The fencing team rounds will take place on nine pistes (plus one reserve piste) as defined by the International Modern Pentathlon Federation (UIPM) rules.

Each athlete will fence against all other athletes with an electric epee in a round robin system. The target area is the whole body.

In the fencing ranking round athletes will receive points according to the number of victories achieved, with the penalty points deducted. The number of points for each victory depends on the number of athletes competing, according to UIPM rules. All athletes will be ranked according to the following criteria: number of points achieved in the ranking round, then number of victories.

The fencing ranking round final standing will be used to determine the start list for the fencing bonus round.

Swimming

The swimming phase is a 200 metre freestyle race. Athletes will be seeded into one of the heats according to their personal best time achieved in that phase during the previous 12 months. The start list for the swimming phase of the individual events will be prepared before the technical meeting.

Fencing bonus round

A single fencing piste will be used for the fencing bonus round. Each bout lasts 45 seconds, and the winner is whoever hits the target area first.

The athletes will be placed according to their position from the ranking round. Their points from the round robin will be taken over to the bonus round and the competition will be carried out in reverse order, with the last placed athlete fencing first against the next-placed athlete.

The winner of each bout will be matched against the next best-ranked athlete. In this way, an athlete may continue to earn MP points and advance in the ranking as long as they continue to win matches.

Riding show jumping

The athletes ride unfamiliar horses over 12 show-jumping obstacles (15 jumps). Jumps are up to 120 cm in height and 130 cm in spread, and include one double and one triple.

The track is between 350-400m in length. Athletes pick their horses by draw, and have 20 minutes and five practice jumps for warm-up.

Combined running/shooting

The athlete with the most points after three phases starts first at the signal (0'00") and will shoot at station No.1 in the combined running/shooting. The remaining athletes start with time handicaps (one second for every 1 MP point obtained after three phases).

The combined running/shooting consists of a 3200m run and four shooting series. Each shooting series consists of five electronic laser precision targets using a laser pistol. Each shooting series is limited to 50 seconds. The course for individual events is composed of: 20m run; first shooting; 780m run; second shooting; 800m run; third shooting; 800m run; fourth shooting; 800m run.

The athletes will be ranked according to their arrival at the finish.

Differences between the UIPM World Championships and the Olympic Games

There are also team and relay competitions for men and women on the programme of a UIPM World Championships. Due to the number of the participants in the individual competition (96 or more) there is a qualification round for the final. The final has the same format as the Olympic Games with 36 athletes.

Changes since the London 2012 Olympic Games

The fencing event has been divided into two rounds, a fencing ranking round and a fencing bonus round. New UIPM rules regarding ranking and scoring have been applied.

The combined running/shooting event now comprises four series of 800m run and five hits shooting.

The points system has been changed so that 1 MP point equals one second.

Sport rules and procedures

Scoring format

Fencing ranking round

The 36 athletes take part in 35 bouts in a round robin system. A total score of 70% victories (25 bouts) equals 250 MP points. For this number of bouts, each extra victory adds 6 MP points, and each extra defeat deducts 6 MP points (6 MP points = 6 seconds).

Fencing bonus round

The points achieved by the athletes from the ranking round (round robin) will be taken over to the bonus round.

Athletes do not lose points if they are defeated. In the case of a double defeat, the winner of the bout is the athlete placed higher on the start list.

The bout winner receives 1 bonus MP point for each bout they win. If the winner of the ranking round wins their bout in the bonus round, they receive double bonus points.

Swimming

A time of 2mins 30 seconds earns 250 MP points. Every one third of a second above or below this time is equal to plus or minus 1 MP point.

Riding show jumping

A clear round in the time allowed will earn the athlete 300 points. All penalty points are deducted from this amount. Infringements of these rules will be penalised by deduction of time penalties (1 MP point for each second exceeding the time allowed), obstacle penalties 7 to 10 MP points, elimination or disqualification.

Combined running/shooting

An athlete earns 500 MP points for a time of 13:20. Every one second faster or slower than the prescribed time is equal to plus or minus 1 MP point.

Event tiebreak rules

The first athlete to cross the finish line in the combined running/shooting phase is the winner. If the winner has fewer points in total score than the next placed athlete, modern pentathlon points must be added so that their pentathlon score is the same.

If athletes finish the combined running/shooting phase in a tie, the athlete with the fastest overall time will win. If the tie remains (i.e. the athletes started with the same handicap) the athlete with the best result in the previous phase (riding) will win. If the tie remains, the athlete with the better Pentathlon World Ranking position will win.

Phase tiebreak rules

If two or more athletes are tied during or after any phase and the tie could not be broken by their score (see special phase rules below), they should share the same rank. Athletes with same rank should be sorted by Pentathlon World Ranking position.

Fencing ranking round

If two or more athletes are tied by the number of points and victories in the ranking round, the direct results among the concerned athletes will be used to break the ties. If more than two athletes remain tied, a direct table system will be used. In case there is still a tie, the athlete with the better Pentathlon World Ranking position will be placed higher.

If the tie occurs with the top placed athlete, the tied athletes will fence an additional bout amongst themselves in order to break the tie to establish the top place in the start list of the fencing bonus round.

Swimming

If a swimming heat ends in a tie, the athlete who has the better swimming time will be placed higher. If still tied they should share the same rank. Athletes with same rank should be sorted by Pentathlon World Ranking position.

Fencing bonus round: bout tie

If a bout ends in a tie, the athlete who has the priority will be declared the winner.

Riding show jumping

If points are tied, the athlete closest to the optimum time will be placed higher. If still tied they should share the same rank. Athletes with the same rank should be sorted by Pentathlon World Ranking position.

Combined running/shooting

If athletes finish the combined running/shooting phase in a tie, the athlete with the fastest overall (combined) time will be ranked higher.

Modern pentathlon records

Modern pentathlon world records may only be achieved in category A competitions for each gender and category (senior, junior, under 19 (YA)). Modern pentathlon Olympic records may only be achieved during Olympic Games.

Records for senior category should be covered during the Olympic Games.

The different records are:

- Overall points - current records to be divided by four to reflect the current point system.
- Fencing - only points (no wins/defeats) and current Olympic records to be divided by four.
- Swimming - only performances 25m and 50m pools (no points).
- Combined running/shooting - only overall performance (no points). However the promotion of fastest shooting series (over four series and per series) will continue for media purposes and running times, if available, for the coaches.
- Riding - no records.

Penalties/disqualification rules

Penalties are imposed for violations of the rules of the games, as laid down by the UIPM Competition Rules. The sanctions are warnings, a start prohibition, time and point penalties, elimination and disqualification.

A disqualification can be imposed on an athlete due to a breach of the rules or in the case of a positive doping test.

In the fencing bonus round, the penalty for a red card offence is 1 MP point = 1 second.

Protests/appeals

Any athlete or team official has the right to protest a condition of the competition, decision or action immediately and verbally to a competition official, referee, range officer or jury member.
