1. Welcome Messages

FISU President

Dear friends,

On behalf of the International University Sports Federation (FISU), I am honored to extend a warm welcome to the representatives of all nations coming to Taipei City in August 2017 for the 29th edition of the Summer Universiade.

This will be the largest international sporting event Chinese Taipei has ever hosted and promises to be an experience that will live long in the hearts of everyone involved. Taipei City is a city of youth, vitality, health, passion and friendliness. Furthermore, Chinese Taipei has dreamed about hosting a Universiade for well over a decade. Its time has now arrived and I am certain that this Universiade will not only inspire those of us lucky enough to be directly involved but also capture the imagination of the city's wider population, young and old, male and female, and elevate the city's sporting culture to an even higher level.

More than 7,000 student athletes across 22 sports will come together from across the globe to enjoy an atmosphere of fair play and friendship, as they pursue excellence in mind, body and lifestyle. FISU's vision is to create a world where every leader in society has been positively influenced by their experience of University sport. The Universiade is our greatest asset in reaching out to the students of the world, engaging them in sport and thereby helping them to become tomorrow's leaders.

And perhaps tomorrow's leaders are among those who will be competing, officiating, working, volunteering or supporting at this Summer Universiade. It is important you all get the most from your experience here in Taipei City and this *Technical Handbook* is designed to help you achieve this.

The Guide is the collaborative work of the Taipei City 2017 Organizing Committee and FISU's teams in Brussels and Lausanne, so thank you to everyone involved in its production and for your continued and excellent work in preparing for Taipei City 2017.

I would also like to thank all our partners and stakeholders for their enthusiastic and dedicated support of the event.

On behalf of the FISU family, I wish you the very best for a successful Summer Universiade. I look forward to your arrival in August 2017 and to celebrating the atmosphere of an international multi-sport event hosted in the University spirit.

Kindest regards

Oleg Matytsin
FISU President

Organizing Committee Chairperson

Dear participants of the Taipei 2017 Summer Universiade,

On behalf of the Taipei 2017 Summer Universiade Organizing Committee, I would like to extend our warmest welcome to all the athletes and delegates. Welcome to Taipei!

The Taipei 2017 Summer Universiade will be a showcase of youthful vitality and a celebration of sport that will make the dreams of youth come true. With guidance and assistance from the International University Sports Federation (FISU) we have completed thousands of preparatory tasks over the past six years. We have prepared a stage for you - athletes from all over the world - to show us your best. Taipei offers friendship, passion and vitality to the world in order to host a competition that will live on in the memory of all participants.

Taipei is a window onto Taiwanese culture. Taiwan is an island in the heart of Asia. Being surrounded by the sea has given us the courage to face challenges and fostered a spirit of adventure. Through history, Taiwan has been a melting pot for indigenous, Chinese, Japanese and many other cultures, giving rise to the rich and unique culture of today. In the summer of 2017, our world-class sporting arenas, staff, volunteers, and spectators will all participants with warm and open hearts.

Taipei has much to offer: world-famous Taiwanese cuisine, important historical sites, the safest tourist environment in the world, a convenient transport network, friendly and hospitable people, modern and fashionable shopping centres, and unique culture and scenery.

The Organizing Committee has prepared comfortable accommodation for participants. As the most important city in the international information industry, Taipei has one of the earliest and best citywide WiFi networks in the world. The Athletes' Village and competition venues for overseas athletes

provide excellent wireless coverage to enable you to stay in touch with people back home. In addition, we have also arranged interesting tours and cultural events so that you may explore Taipei culture, food and history, and experience our uniquely passionate, cultural and technological city.

Since I became Chairperson of the Taipei 2017 Summer Universiade, my team and I have worked hard to turn everyone's dreams into reality. Taipei is now ready to welcome the world with open arms. I would like to thank FISU and all our competitors for your support. We couldn't have done this without you. And to all the young athletes here today: I hope you set a new personal best here in Taipei. Enjoy the Taipei 2017 Summer Universiade and make memories you can cherish for the rest of your life!

Wen-Je Ko

4. General Information

Chinese Taipei

Geographical Overview

Taiwan is located at the southeast of the Asian continent, between East and Southeast Asia island arcs on the west coast of the Pacific Ocean. The north is close to Japan and Ryukyu Islands, and the south connects to Philippines. It is an important hub to travel back and forth everywhere in Asia. The land area is about 36,188 square kilometers and the length from north to south is about 395 kilometers. It is a long and narrow island in the north and south. Taiwan is located between Eurasia plate and Philippine Sea plate, so the complex and various landscapes in Taiwan are formed, having mountains, hills, plains, basins, islands, ranges, coasts, and other landscapes.

Climate

Taiwan is located in a subtropical area, and it is warm the whole year. The four seasons here are all like spring because the average temperature is 22 degrees. Because the summer is influenced by southwest monsoon and the winter is influenced by northeast monsoon, the plum rain season is in May and June, and the typhoons happen from July to September, abundant rain is brought to Taiwan and the average rainfall per year is 2,515 cm.

Population, Ethnic Group, and Language

Population: about 23.51 million people (October 2016)

Ethnic group: The groups in Taiwan are mainly Taiwanese, Hakka people, Taiwanese aborigines, and mainlanders.

Language: The official language in Taiwan is Mandarin, and there are also Taiwanese, Hakka, and Austronesian language used by aborigines.

Brief introduction of Taipei City

Taipei City is located at the Taipei Basin, north of Taiwan, and it is surrounded by New Taipei City. The population in Taipei City is about 2,696,319 (October 2016) and the total area is 271.7797 square kilometers. The density of the population is number one in Taiwan, and is the political, economic, and cultural center of Taiwan.

Taipei became the first special municipality of Taiwan in 1967, and the flourish of economy and international trades for many years has made Taipei the political, financial, transportation, and cultural center of Taiwan. The industrial structure is mainly the secondary industries and tertiary industries, and especially the tertiary has the largest working population. When facing the tread of integrating global economy areas in the future, Taipei City will enhance the development of finance, media, telecommunication, and other industries in order to grow to be an internationalized city. Moreover, Taipei City has abundant and developed traffic network, including MRT system, bus, railway system, airport, and others, which is modern city with complete functions, sound equipment, and prosperous economy.

The status of the religions in Taipei City is basically the same as that in Taiwan, which are mainly Buddhism and Taoism. There are many famous temples in Taipei City, such as Zhinan Temple, Guandu Temple, Longshan Temple, and others. Moreover, the number of Christian and Islam believers in Taipei City is the greatest in Taiwan, which means there is a diverse and flourishing religious culture.

The traveling culture in Taipei is very popular. There is the National Palace Museum that has an abundant collection, Taipei 101, the highest building in Taiwan, or the night markets that have many local features are all the famous tourist spots in Taipei City. The convenient and dense transportation network can take travelers to all the spots quickly, and “Worldwide Index of Global Destination Cities 2014” rated Taipei as number six among the best Global Destination Cities in Asia-Pacific and only second to Hong Kong in Greater China, showing that Taipei has gradually become a great potential popular destination city in Asia-Pacific.

Climate data of August

Organizing Committee Representative	Yin-hua Chen (TPE)
Additional Experts	To be nominated at the 1st General Technical Meeting, if needed

No more than two (2) members of the CT should be of the same nationality, not including the FISU Technical Delegate(s).

Technical Regulations

- 11.1 The sports events of the 29th Summer Universiade 2017 Taipei City - Chinese Taipei shall be Organized in accordance with the most recent technical rules of the appropriate ISFs unless otherwise stated by the FISU Executive Committee.
- 12.5.1 The fencing events will be Organized in accordance with the most recent technical rules of the “Fédération Internationale d'Escrime” (FIE). In case of disagreement in the interpretation of these rules, the French text will be regarded as authoritative.
- 12.5.2 The program and duration of the competitions will be fixed by the FISU Executive Committee in agreement with the Organizing Committee and the CTI-UE. In principle, the program will last six (6) days and will include the following events:

Men	Women
Individual	
Foil	Foil
Sabre	Sabre
Epée	Epée
Team	
Foil	Foil
Sabre	Sabre
Epée	Epée

12.5.3 Each country is authorised to enter twenty four (24) competitors, with four (4) competitors in each weapon.

For the individual competitions, a country can enter a maximum of four (4) competitors for each weapon.

For the team competitions, each country can enter only one team for each weapon. Each participating team is made up of three (3) competitors and one (1) optional substitute.

All athletes must have a valid FIE license. The license number must be properly indicated on the individual entry form. Athletes entering in the fencing competitions must also be entered on the FIE website.

At the first General Technical Meeting, the Head of Delegation or his/her representative shall confirm and sign the official list of competitors.

Any entry not duly confirmed at the first General Technical Meeting, will not be taken into consideration except for force majeure.

Pre-Competition Procedure

12.5.4 Deposits

One (1) month before the opening ceremony of the Summer Universiade, countries entering in an individual sport must confirm their entry with an advance payment of 25 % of the participation fees per entered competitor and official.

The deposit, which guarantees entry in individual sports, shall be directly collected by the Organizing Committee.

Should a competitor compete, his/her deposit shall be credited to the remainder of the participation fees to be paid to the Organizing Committee.

12.5.5 Seeding and Draw

Fencers participating in the individual competitions will be seeded according to their current position in the FIE World Cup ranking. The position of unranked fencers will be randomly drawn. For team events, teams will be seeded based on the results of their team members in the individual competitions. The three (3) best results will be added up to determine the seed in that particular weapon. The team with the smallest sum will become number one (1), etc. Fencers not participating in the individual competition of a discipline will receive a number equal to the total of participants in the respective individual event plus one (N+1).

Competition Format

Individual Events

The preliminary round of competition will run by pools. The initial order of fencers will be established according to the updated FIE Official Ranking, available at www.fie.org/results-statistic/ranking. If there are fencers qualified who do not appear in the FIE Official Ranking, and/or if there are fencers equally ranked in the FIE Official Ranking, the DT will carry out a preliminary drawing of lots by PC as follows:

a drawing of lots for any fencers equally ranked

a drawing of lots for any fencers who do not appear in the FIE Official Ranking. Each pool will be arranged on the same piste, and composed of six to seven fencers who will fence each other (three minutes, five hits). One of the fencers who has scored five hits first or has scored greater number of hits if when the time limit expires will be declared the winner. 20% - 30% in the pools will be eliminated, and then the other fencers will advance to the direct eliminations.

Duration and scoring in Direct elimination phase: individual events (épée, foil and sabre)

All bouts in the individual events in épée and foil will consist of three (3) periods of three (3) minutes, with one (1) minute between periods, or until one fencer has scored 15 hits. If the third (3rd) period is completed before either fencer has scored 15 hits, the fencer with the most hits will be declared the winner.

If the scores are tied after the third (3rd) period, there will be one (1) further minute of Fencing time. One fencer will be randomly selected through an electronic draw and given priority. The winner will be the first fencer to score a valid hit; if no hits are scored, the winner will be the fencer with priority.

The sabre match is composed of two bouts wherein two fencers would have one minute rest time when eight hits are scored at the first bout, the second bout will compete and end until 15 hits scored by the winner.

Non-combativity will be governed by the FIE rules in force.

Team Events

Each team will consist of four competitors composed of three fencers and one optional substitute. The competition is run by integral direct elimination with a direct elimination table, which may be incomplete. The qualified teams will be ranked by the results of Individual events according to the most recent rules of FIE.

Duration and scoring: team events (épée, foil and sabre)

In the team events, each match will consist of nine (9) bouts, to a maximum of 45 hits. Each bout will last three (3) minutes, or until one team's score has reached the next multiple of five (5) hits: a score of five (5) hits after the first bout, a score of 10 hits after the second (2nd) bout, a score of 15 hits after the third (3rd) bout and so on. If the ninth (9th) bout is completed before either team has scored 45 hits, the team with the most hits will be declared the winner.

If the scores are tied after the ninth (9th) bout, there will be one (1) further minute of Fencing time. One fencer will be randomly selected through an electronic draw and given priority. The winner will be the first fencer to score a valid hit; if no hits are scored, the winner will be the fencer with priority.

Non-combativity will be governed by the FIE rules in force.

CLOTHING AND EQUIPMENT

Clothing and equipment used by athletes and other participants in the Fencing competition must comply with most recent FIE rules in force available in French, English and Spanish at www.fie.org.

Competition Procedure

- Warming up exercises
- Entering into the Fencing Hall
- Competition
- Signing on the competition record by the fencers (only after pools)

Doping Control

General Information

Doping Control during the Taipei 2017 Universiade will be strictly conducted by the Organizing Committee according to WADA and FISU regulations in order to ensure a fair competition and promote good sportsmanship.

Doping Control will begin from the opening date of the Athletes Village and last until the end of the Universiade. Participating athletes must abide by the relevant regulations and follow given guidelines when they have been selected and notified for testing. Any athlete who refuses to undergo testing, or interferes with the testing process, will be considered to have committed a doping violation and be subject to disciplinary action.

Doping Control Station (DCS)

Doping control stations are designed in accordance with WADA and FISU regulations. Samples for testing are collected in the Doping Control Station of each competition venue and can be collected at the Doping Control Center (Doping Control Station) located within the Athletes Village.

Athlete Selection

In individual events, Doping Controls will in principle be carried out on two Fencers chosen by drawing lots among the finalists. Regarding team events, Doping Controls will in principle be carried out on two Fencers, i.e. one Fencer drawn by lots from each of the first two teams.

Accompanying Persons

Athletes may be accompanied by an additional person (coach, trainer, team doctor, etc.) and an interpreter if desired.

Reporting to Doping Control Station

The athlete must report to the doping control station in a reasonable amount of time from selection. The athlete will be allowed to attend ceremonies, press conference, etc., as long as they are accompanied by their chaperon.

Sample Collection

Athletes selected for testing will be notified immediately following the competition and will be under constant visual observation by a chaperon until they enter the Doping Control Station. At the station, sample (urine and/or blood) will be collected in a vessel, then sealed and submitted for transportation to the WADA approved laboratory under the supervision of a Doping Control Officer.

Athletes Obligation

The athlete must have their Accreditation with them at all times.
The athlete must report all medications taken in the prior month.
The athlete must present their TUE Document if he/she has one.

Testing Organization & Result

Collected samples will be analysed usually within 48 or 72 hours of collection at a WADA-accredited laboratory “Tokyo, Japan, Mitsubishi Chemical

Medience” , and results will be directly notified to the FISU Medical Chair. Athletes who test positive for banned drugs and fail the doping test may be subject to disqualification and disciplinary action.

Additional Controls Requested

A team may request for doping control tests to be performed on an athlete who has not been selected for doping control.

Examples of indications for this request are for National Records, or Target Testing. These athletes have to complete the “FISU Doping Control Request Form” . They will then be escorted to the Doping Control Station. Costs for these tests will be the responsibility of the requesting organization. Results management for these tests will be the responsibility of FISU and the appropriate International Federation.
