

Explanatory document

Following questions from federations and in order to explain the implementation of the rule on rankings, please find attached a table which shows how competitions are replaced from one season to the other.

The rule is:

“Official FIE individual ranking

o.108

1 Principles

- c) *For both Senior and Junior rankings, the ranking is **rolling**.*

The first Grand Prix event of the current year cancels out the first Grand Prix event of the previous year and so forth for the remainder of the Grand Prix events.

The first World Cup individual event of the current year cancels out the first World Cup individual event of the previous year and so forth for the remainder of the World Cup events in the season. The first satellite competition of the current year cancels out the first satellite competition of the previous year and so forth for the other satellite competitions.

The points allocated for a competition cancel out the points attributed to the corresponding competition in the previous season.

If a competition does not take place in the current season, the points obtained at the same competition in the previous season are deleted on the anniversary of the competition.”

Therefore, and because the dates of the competitions change from one season to the other, one competition can be the second one (for example) in the season 2017-2018, but may become the fourth one in the 2018-2019 season.

In addition, some competitions are in the calendar on a rotation basis which means that they are included every two years.

Please note that some dates are still not confirmed.
