Welcome to the International Fencing Camp of the Olympians where you will learn fencing from the best!

The International Fencing Camp is specially designed for junior athletes of all levels - beginners, intermediate and elite epee fencers in the age categories U12, U15 and U18 boys and girls.

During the 6 action-packed days of the camp (IFC), the participants will be able to fence, train and learn in a safe and happy environment while progressing towards their individual potential, aims and aspirations in fencing. The young athletes will encounter a variety of epee techniques and training practices, while some of the world's top fencers share their passion and expertise and guide them in mastering the epee.

The renowned Olympians **Ana Maria Popescu**, **Ruben Limardo Gascon** and **Nikolai Novosjolov** have joined the third edition of the International Fencing Camp, ready to pass on the flame of the International values to the next generation and give to our young participants the unique opportunity to learn fencing from the best!

The International Fencing Camp will take place from 30th of July to 6th of August 2022 in the amazing resort of Albena, Kranevo, located at the stunning Bulgarian Black Sea. The venue of the camp AquaLife is a favorite sporting destination offering a mix of beautiful nature, modern comfort and a wide range of recreational and water sports activities.

We believe that excellent preparation and true development happen when body, mind and heart are all engaged in the learning process. Therefore, we have crafted carefully a unique experience, blending sport, culture, education and nature all in one: the International Fencing Camp - an exclusive opportunity for the young athletes to enhance their motivation, knowledge and skills and live fully the spirit of the International values.

We look forward to a week of great fencing and unforgettable moments together!

Yours in Fencing,

International Fencing Camp Team
