Dear Mr. President, my dear friend,

the Comex's member, Ms. Irem Karamete Baldini, delegated by myself as an observer at the last competition, on January 21st and 22nd, informed me about the excellent organization put in place by your Federation.

As a representative of EFC and Comex member, she shared with me the wonderful impression she had about the organization, during the various moments of the competition, as in the moment of the award ceremony.

It was a fine example of dedication to our sport for the benefit of the image and credibility of fencing.

For this reason, on my personal behalf and on behalf of the entire European Fencing Confederation, I address to you very warm congratulations for the success of the event, with a prayer to extend my thanks to all your collaborators, reiterating the fact that this is the most effective way to serve and practice Fencing.

With esteem, my best regards

Giorgio Scarso  
President  
European Fencing Confederation
